

Amendments to the Claims

This listing of claims will replace all prior versions, and listings, of claims in the application:

1. (Original) A method of making a pump including a polymeric pump housing and a drive shaft mounted for rotation in a bearing, the bearing having on an exterior surface at least one engagement formation, the method including the step of moulding the pump housing around the bearing such that the housing cooperates with the engagement formation to restrict movement of the bearing with respect to the housing.

2. (Original) A method according to claim 1 wherein the polymer is a thermoplastic.

3. (Currently Amended) A method according to claim 1 ~~or 2~~ wherein the housing is moulded using injection moulding.

4. (Currently Amended) A method according to ~~any preceding claim~~ claim 1 wherein a lubricant is incorporated in the bearing prior to moulding of the housing around the bearing.

5. (Currently Amended) A method according to ~~any preceding claim~~ claim 1 wherein the exterior surface of the bearing is generally cylindrical and the engagement formation comprises at least one circumferential groove in the exterior surface of the bearing.

6. (Currently Amended) A method according to ~~any preceding claim~~ claim 1 wherein the shaft is received in a use position in the bearing during moulding of the housing.

7. (Currently Amended) A method according to ~~any~~
~~preceding claim~~ claim 1 wherein the bearing is a ball bearing.

8. (Cancelled).

9. (Original) A pump made using the method of claim 1.

10. (Original) A pump according to claim 9 wherein the
pump is a coolant pump for an automotive engine.

11-12. (Cancelled).
